Appl. No. 10/080,999 Amdt. dated October 13, 2004 Reply to Office action of August 4, 2004

REMARKS/ARGUMENTS

The Applicant has received the Office action dated August 4, 2004, in which the Examiner: 1) rejected claims 1, 2, 5-9, 11, 12, 17, 18, 24-26, 30, 31, 34-36, 40, and 41 under 35 U.S.C. § 103(a)¹ as being unpatentable over Fukuoka (U.S. Patent No. 6,300,976, hereinafter "Fukuoka") in view of Harris (U.S. Patent No. 6,738,643, hereinafter "Harris"); 2) rejected claims 3, 4, 29, and 39 under 35 U.S.C. § 103(a) as unpatentable over Fukuoka in view of Harris, in further view of Reele et al. (U.S. Patent No. 5,893,037, hereinafter "Reele"); 3) rejected claims 10, 16, 22, 23, 28, 32, 33, and 38 under 35 U.S.C. § 102(e) as being anticipated by Fukuoka; and 4) rejected claims 13-15, 19-21, 27, and 37 under 35 U.S.C. § 103(a) as being unpatentable over Fukuoka in view of Whitman (U.S. Patent No. 6,526,351, hereinafter "Whitman").

With this Response, the Applicant has withdrawn claims 3, 4, 10-31, 37, and 39. Therefore, claims 1, 2, 5-9, 32-36, 38, 40, and 41 remain pending.

I. WITHDRAWN CLAIMS

Claims 10-31, 37, and 39 have been withdrawn from consideration in the instant application. This withdrawal, however, in no way concedes to the merits of the Examiner's rejections. Rather, this withdrawal is made to consolidate matters before the Examiner and expedite prosecution. In addition, this withdrawal is not intended to be a relinquishment of the subject matter contained in the withdrawn claims, and the Applicant reserves the right to reassert the withdrawn claims, for example, during further prosecution of the instant application or in a continuation application.

II. REJECTIONS UNDER 35 U.S.C. § 102(E) IN VIEW OF FUKUOKA

The Examiner rejected independent claim 32 under § 102(e) as allegedly anticipated by Fukuoka. The Applicant respectfully traverses because Fukuoka

¹ The Office Action appears to be contradictory with regard to the specific rejection of claims 24-26 and 34-36. On page 6 of the Office Action, claims 22-26 and 32-36 are rejected as allegedly anticipated under § 102(e) by Fukucka. On page 8 of the Office Action, however, the Examiner admits that with regard to claims 24-26 and 34-36, Fukucka does not teach all of the claim elements but that Harris teaches the missing claim elements. Accordingly, the Applicants will treat the rejection of claims 24-26 and 34-36 as rejections under § 103(a).

falls to teach or suggest all of the claim elements. For example, independent claim 32 recites (emphasis added): "acquiring an image with a portable electronic device [and] transmitting said image to an intermediate electronic device using wireless communications" The Applicant respectfully submits that Fukuoka does not teach or suggest that the communication between the portable electronic device (a camera 30 in Fukuoka) and intermediate electronic device (a cell phone 32 in Fukuoka) is wireless. In fact, every indication from Fukuoka is that the communication line 24 between the camera and the cell phone 32 is wired. See e.g., Col. 2, II. 57-60; Col. 7, II. 12-15. For at least this reason, claim 32, as well as dependent claims 33-41, are not anticipated by Fukuoka.

III. REJECTIONS UNDER 35 U.S.C. § 103(A)

The Examiner rejected claims 1, 2, 5-9, 34-36, 40, and 41 under § 103(a) as allegedly obvious over *Fukuoka* in view of *Harris*. The Applicant respectfully submits that the Examiner has failed to establish a prima facie case of obviousness because the references when combined do not teach or suggest all of the claim elements. For example, claim 1 recites (emphasis added) "a transceiver ... capable of <u>wireless</u> communications ... wherein said transceiver <u>wirelessly</u> transmits said image to a remote storage device through an intermediate electronic device." As mentioned above with regard to the § 102 rejections, *Fukuoka* fails to teach or suggest <u>wirelessly</u> coupling the camera (portable electronic device) to a cell phone (intermediate device). *Harris* is also deficient in this regard. Figure 4 of *Harris* clearly shows the camera 450 <u>physically</u> coupled to PDA 400. Accordingly, the Examiner has failed to establish a prima facle case of obviousness with regard to the pending claims.

IV. CONCLUSION

The Applicant respectfully requests reconsideration and allowance of the pending claims. If the Examiner feels that a telephone conference would expedite the resolution of this case, he/she is respectfully requested to contact the undersigned.

In the course of the foregoing discussions, the Applicant may have at times referred to claim limitations in shorthand fashion, or may have focused on a

particular claim element. This discussion should not be interpreted to mean that the other limitations can be ignored or dismissed. The claims must be viewed as a whole, and each limitation of the claims must be considered when determining the patentability of the claims.
